RESEARCH EXPERIENCE

12/18-06/20

Project Coordinator
REPEAT Lab
PI: Emily B. Ansell, PhD
Syracuse University, Syracuse, NY | Penn State University, State College, PA

Responsible for primary coordination of an NIH/ NIDA funded R01 to examine sex differences and effects of cannabis in recreational and regular cannabis using young adults. Duties include coordination and administration of study assessments as part of a longitudinal study, administering cognitive testing (e.g., WASI, RAVLT) and clinical interviews (e.g., SCID, Addiction Severity Index), collecting and testing biological samples, training and oversight of smartphone based assessment protocol, coordination of undergraduate students and other research staff, updating and renewing study IRB protocols. In addition, helped to organize the 2019 Society for Ambulatory Assessment conference.

10/15-8/18

Research Assistant

Psychiatric Genetic Epidemiology & Neurobiology Lab- RDoC Project PI:
Stephen J. Glatt, PhD
Department of Psychiatry
SUNY Upstate Medical University, Syracuse, NY

Responsibilities for the NIMH-funded Longitudinal Family/Molecular Genetic Study to Validate Research Domain Criteria included administration of semi-structured clinical interviews (e.g., SAICA) and objective performance tests (e.g., Qb Test) to assess child psychopathology and social competence. Completed honors thesis analyzing the relationship between the RDoC positive valence systems construct and impairment in child participants.

6/17-7/17

Research Assistant

Social Cognitive Development Lab
PI: Yarrow Dunham, PhD
Yale University, New Haven, CT

Responsibilities as an SCD lab intern included assisting a graduate student mentor in developing and testing participants in two studies assessing development of group-based reasoning and social ontology in children. Presented at weekly lab meetings and presented a poster at an interdevelopmental lab poster session. In addition, assisted with daily lab duties such as recruiting and scheduling participants and maintaining participant database.

1/16-5/16

Laboratory Assistant

Developmental Biopsychology Lab
PI: Catherine Cornwell, PhD
Syracuse University, Syracuse, NY

Duties as a laboratory assistant for the Developmental Biopsychology lab included handling mice in Sociability and Elevated Plus Maze tasks and instructing students in the PSY 334 developmental biopsychology laboratory class.

9/15-5/17

Research Intern

Supervisor: Richard O'Neill, PhD
Department of Psychiatry, SUNY Upstate Medical University, Syracuse, NY

Assisted Dr. O'Neill with manuscript preparation. Tasks included literature review, gathering and formatting sources using APA 6th edition, and editing

manuscripts for errors and content. Acknowledged in the following article published in *GROUP: Journal of the Eastern Group Psychotherapy Society*: O'Neill, R.M., & Mogle, J. (in press). Systems-centered® [1] functional subgrouping and large group outcome, *Group*, 39 (4).

CLINICAL EXPERIENCE

7/18-12/18

Behavioral Health Community Liaison
Family Counseling Services
Supervisor: Amanda Stout, LCSW
Cortland, NY

Responsibilities as the behavioral health community liaison included cofacilitating outpatient therapy groups for chemical dependency clients and coordinating with the counseling and medical staff to ensure that all clients were receiving primary care services in accordance with OASAS regulations. Additional duties were updating electronic medical records and client charts.

6/16-8/16

Yale Summer College Intern
Specialized Treatment Early in Psychosis Clinic (STEP)
Connecticut Mental Health Center
Supervisor: Rebecca Miller, PhD
New Haven, CT

Responsibilities as a Yale summer intern with the STEP Clinic included attending weekly rounds, assisting with outpatient therapy groups, and working independently on a project that tracked the appointment attendance of each client. An additional component of the internship was shadowing a psychiatrist, which included observing sessions with clients and attending occasional classes at the Department of Psychiatry. Other internship responsibilities consisted of attending bi-weekly seminars with Yale Faculty and completing a literature review on side effects of antipsychotic medications.

PRESENTATIONS

7/19

Cleary, E., Santangelo, P., Hooker, J. & Ansell, E. (2019, July). *Effects of Menstrual Cycle Phase on Impulsivity and Cannabis Use in Female Cannabis Users.* Poster presented at the annual meeting of the Research Society on Marijuana, Vancouver, WA.

6/19

Cleary, E., Santangelo, P. & Ansell, E. (2019, June). *Ecological Momentary Assessment of Premenstrual Symptoms.* Poster presented at the biennial meeting of the Society for Ambulatory Assessment, Syracuse, NY.
